# 10 Reasons Farmers Prefer

the **FoxDrive** pocket/finger-type planter for bare root OR plug  
*over the competition*

**Checchi & Magli**

**1 Deeper planting. Better stand. Tighter packing.**  
In side-by-side comparisons with other brand transplanters, farmers say they can look over their crop and see where they planted with the C&M. Plants are healthier, stronger, and noticeably ahead.

**2 Cast iron shoe/sword-**  
lasts longer!

**3 Adjustable**  
plant depth control

**4 The weight of the operator rides**  
on the tool bar and does not  
effect the planting

**5 Consistent**  
plant to plant spacing  
(no skipping/slippage)  
our packing wheels pack  
and our drive wheels drive

**6 15 grippers for**  
greater speed  
(optional 10 or 20)  
Increases efficiency.  
Decreases misses.

**7 Grippers/packing wheels**  
set plant straight up  
in the ground

**8 Heavy-duty**  
"80" roller chain

**9 Each row has a**  
parallelogram  
for constant  
planting depth

**10 Efficient! Over 4,400 plants per hour per row!**
