The Most Efficient Turbine

Engine Drive for Slurry

Pumps

Low Pressure Booms
up to 250' irrigated width

Squatters

Micro Rain

No One Sells More **Travelers**

WHY OCMIS
we irrigate the world

As an irrigation dealer, we know there are many key factors you consider when adding a new product line. We feel no one compares to the impressive list of reasons that OCMIS offers you.....and that is why OCMIS is the market leader and fastest growing traveler brand in North America. Here are just a few reasons to consider:

- OCMIS is the largest manufacturer in the world of hard hose travelers and rose to number one due to their superior quality, performance and features.
- OCMIS has a large network of dealers who buy direct from the factory in Italy and therefore have a competitive price advantage often exceeding 20%.
- OCMIS is ISO 9001 certified - an international standard for quality and productivity.
- OCMIS has a parts and technical service depot centrally located outside of Oklahoma City, OK (KID) which inventories parts to support your machines. We ship next day air to anywhere in the USA.
- OCMIS has over 40 years of proven experience in the industry, manufactures the complete machine, is financially sound and has been present in this market for over 14 years.
- OCMIS was the first to develop and patent the Vario Rain turbine/gearbox which is the most efficient turbine and gearbox on the market.
- OCMIS offers a galvanized chassis and gun cart as standard on their complete line of travelers. No one makes a broader range of sizes than OCMIS ranging from 1" to 5" i.d. and from 300' to 2500' in length.
